

# HARDIGG BLACKBOX 19" RACK MOUNT CASE

## BB0030 (3RU)

For fragile instruments and sensitive electronics, there's no better protection than a Hardigg Rack Case. Designed specifically to shield delicate equipment from shock and vibration, Rack Cases are also impervious to the elements, and can take repeated exposure and impact without putting your gear at risk. If your electronics need serious protection, Hardigg has a rackmount solution to meet it.

### All Rack Cases feature:

- Molded-in, tongue-in-groove gasketed parting lines for splash resistance and tight seals, even after impact.
- Reinforced corners and edges for additional impact protection.
- Aircraft-quality, tempered aluminum for less weight and more strength.
- Recessed hardware for extra protection.
- Positive anti-shear locks, which prevent lid separation after impact, and reduce stress on hardware.
- Molded-in ribs and corrugations for secure, non-slip stacking, columnar strength, and added protection.
- Permanent, uniform, molded-in color that won't scrape off.
- Patented molded-in metal inserts for catch and hinge attachment points, which provide strength and spread loads to the container walls.
- Interference-fit spiral spring pins in each corner, for maximum structural integrity
- One-piece body and lids, molded from lightweight, high-impact polyethylene.
- Meet ANSI/EIA-310-C standard for universal rack mounting hole pattern, and exceed ATA Specification 300, Category 1 requirements.

**External Dimensions:** 978 x 625 x 289mm

**Weight:** 19.1kg

**RRP:** \$1,484.19 + GST

**Sale Price: \$1,038.93.00 + GST**
